FOR VETERINARIANS

SERVET

Now you can download many of the books from the Servet catalogue to your tablet and take advantage of all the possibilities offered by digital technology

www.myvetlibrary.com

How do I get the e-books?

➔ By purchasing printed books with a digital version included

All the books that include a digital version are identified with this symbol.

eBook included 

Inside the book you will find a code with specific instructions to activate the e-book on the website: www.myvetlibrary.com

Two options are available to access your e-book:

- Online version from a PC or Mac: through www.myvetlibrary.com
- Offline version on iPad/Android tablets: through the app "Servet digital"

➔ By downloading the app "Servet digital"

You can also buy e-books from our app through the Apple Store or Google Play purchase system.

Note: This method does not allow access to the online version of our e-books from a PC or Mac.

English, Japanese and Korean.

3D CARDIOLOGY IN SMALL ANIMALS

Pathophysiological and diagnostic key concepts

A guide in which the main cardiac diseases in the dog and cat are represented in a very visual manner. Vets will be able to use this guide both as a reference and as an aid to explain diseases to pet owners. The graphic material consists of 3D illustrations, augmented reality, and diagnostic imaging pictures.

EAR DISEASES IN DOGS AND CATS. CASE STUDIES

Twenty per cent of visits to the vet may be due to otitis and, although in general they do not represent a serious condition for the animal, they may become very insidious processes if they are not treated suitably. This work presents a selection of clinical cases to help vets to establish the proper guidelines for treatment, management and control.

UPDATE ON CANINE HYPOTHYROIDISM AND FELINE HYPERTHYROIDISM

This clinical manual on thyroid gland conditions offers an update on the concepts and clinical reality of canine hypothyroidism and feline hyperthyroidism, two diseases that have been the subject of much case-based reasoning.

SERVET UPDATE. MAIN ENDOCRINE DISORDERS OF THE ADRENAL AND THYROID AXES IN DOGS AND CATS

This book describes, from a practical and clinical point of view, the most relevant disorders affecting the adrenal and thyroid axes in cats and dogs. It is intended to help veterinary surgeons in the diagnosis of both common disorders of the endocrine system, such as Cushing's syndrome and hypothyroidism, and less frequent pathologies, such as adrenal insufficiency and hyperthyroidism.

BEHAVIOURAL CHANGES ASSOCIATED WITH PAIN in companion animals

This book deals with pain in companion animals and how it affects their welfare, health and, of course, behaviour. It describes the difficulties encountered to finally reach the conclusion that animals and humans share the same neurophysiological mechanisms to feel pain. It then goes deeper into the changes that pain can cause in the behaviour of dogs and cats and the tools available to the veterinary surgeon to control it.

INFECTIOUS DISEASES IN CATS. PRACTICAL GUIDE

This book addresses the main feline infectious diseases that are usually seen in daily veterinary practice. Its main aim is to provide highly practical information in order to offer a new perspective, different from other textbooks, about the current infectious diseases in cats.

ANTIMICROBIAL THERAPY IN SWINE A PRACTICAL APPROACH

The author of this book has tried to present, in a visual and practical manner, the most important aspects a veterinary clinician should take into account to design appropriate antimicrobial treatments in swine herds. Thus, the most updated pharmacological knowledge is reviewed with the help of real clinical cases. It also includes a comprehensive review of what a prudent use of these essential tools to ensure our animals' health means.

HANDBOOK OF LABORATORY DIAGNOSIS IN SWINE

This useful handbook describes in detail the entire process of diagnosis, collection and sending of samples to the laboratory, the interpretation of findings, and the description of the basic laboratory techniques. It goes deeper into the knowledge of the different swine pathologies and clearly exposes the different pathologies using flow charts that will guide veterinary surgeons through the diagnostic process.

ATLAS OF ANATOMICAL PATHOLOGY OF THE PORCINE RESPIRATORY SYSTEM

This atlas facilitates the recognition of different types of lesions of the swine respiratory system. Its purpose is to show the morphological bases of swine respiratory pathological conditions and their causes. To this end, every image is accompanied by a brief text to better understand the microscopic and macroscopic changes observed and help vets to reach a diagnosis.

A GUIDE FOR SWINE NECROPSY

This guide is intended to aid swine veterinarians as they discuss the value of performing necropsies with their clients. Swine veterinary surgeons can use this guide with clients to increase their understanding of proper necropsy techniques and resulting methods of diagnosis.

A GUIDE TO NECROPSY DIAGNOSIS IN SWINE PATHOLOGY

This book describes how to carry out a quick and complete post-mortem examination with a technique that allows you to obtain the maximum possible information and helps in the observation of lesions for their correct interpretation. This necropsy protocol respects the different traditional incision and observation planes, as well as the sampling methods for further studies.

BOVINE RESPIRATORY DISEASE ESSENTIAL GUIDES ON CATTLE FARMING

Bovine Respiratory Disease (BRD) is probably the most common and costly disease affecting beef cattle industry worldwide. This practical work, written by a highly experienced expert, tries to summarise the most essential features of the disease in an attempt to provide veterinary surgeons with a helpful tool to control this disease properly.

Manuel Fernández

UTERINE DISEASES

ESSENTIAL GUIDES ON CATTLE FARMING

Practical handbook focused on the main uterine diseases affecting bovine species and written by renowned authors with a wide experience in their control in the field. All the diseases included in this work (clinical metritis, clinical/subclinical endometritis, pyometra...) include the most updated information, emphasizing diagnosis and treatment.

PARASITOLOGY AND PARASITIC DISEASES

ESSENTIAL GUIDES ON CATTLE FARMING

Handbook entirely dedicated to parasitology and parasitic diseases in bovine species based on a handy, visual approach of the topic. It includes the most essential contents and many significant tips and graphic resources (life cycles, clinical signs, diagnosis, treatment guidelines, etc.) to turn this atlas into a reference in its field.

BOVINE MASTITIS

ESSENTIAL GUIDES ON CATTLE FARMING

Mastitis represents a major endemic disease of dairy cattle, being a very complex disease that depends on several factors and usually presented subclinically in herds. The treatment and control entails high costs and losses for the industry. The author has developed an accurate, visual review analysing the most highlighted features of this condition and pointing out the main control measures to prevent it.

BOVINE RESPIRATORY DISEASE

Bovine Respiratory Disease (BRD) is a condition that causes significant economic losses in cattle farms. This book on BRD is divided into five chapters, in which important aspects such as epidemiology, predisposing factors, main pathogens involved, diagnosis, prophylaxis and treatment are addressed. A comprehensive review to have at hand for all the bovine veterinary surgeons.

60 Q&A ON BOVINE PARASITOLOGY

A HANDBOOK OF QUESTIONS AND ANSWERS

Through 60 cases of questions and answers (Q&A), in which real situations are reflected, an entirely practical review of bovine endoparasites and ectoparasites is carried out. The book is divided into four chapters dedicated to the endoparasites of the digestive and respiratory systems, systemic endoparasites and skin parasites.

Q FEVER. AN EMERGING DISEASE

The aim of this book is to provide the practitioner with the most recent and best evidence information about Q fever in ruminants. After a brief introduction, the epidemiology and the pathogenesis are described to strengthen the key points regarding the improvement of control strategies. The clinical course of the disease and its impact on reproduction disorders are also depicted.

THE PERIPARTUM COW. PRACTICAL NOTES

The cow's peripartum period from a practical and dynamic point of view, explained through theoretical explanations and a huge collection of clinical cases. Normally, disorders or conditions occurring in the peripartum period are not independent events; they are the result of the interaction of several events occurring over time. The authors highlight here the importance of assessing bovine pathologies as a whole. It is the only manner for the clinician to anticipate conditions that may appear during the peripartum period.

COLOSTRUM. KEY TO SURVIVAL

One of the pillars of health in cattle is colostrum administration to calves. This guidebook aims at highlighting that not all colostrums are equal. Each case must be studied in depth, in order to give the adequate passive immunity the neonatal calf needs. The book is presented in an effective and easy-to-read way, and offers answers to the questions that can arise when carrying out this task.

THE OESTRUS CYCLE OF THE COW A PHOTOGRAPHIC ATLAS

This original publication on cattle reproduction will help vets to recognise structures and compare them to achieve appropriate herd reproduction. It contains an extraordinary extensive photographic selection of images of the oestrous cycle of the cow and is intended to be yet another contribution to that difficult art of achieving a mental image of what is perceived by touch.

DIAGNOSIS OF MAJOR POULTRY DISEASES

An accessible yet rigorous book on the diagnosis of the main diseases affecting poultry, written by renowned experts with a wide experience in this field. Each disease has been thoroughly reviewed to include the most updated information (clinical signs, gross and microscopic lesions, detection of aetiological agents and serological techniques for antibody detection).

eBook included 

MAIN DISEASES IN POULTRY FARMING BACTERIAL INFECTIONS

Handy and rigorous book focused on the main bacterial infections in poultry farming. It combines relevant information when dealing with the diseases and scientific background information. Each chapter comprises the most updated information to better understand the various infections and numerous high-quality images have been included to complement the information provided.

MAIN DISEASES IN POULTRY FARMING VIRAL INFECTIONS

Handy and rigorous book focused on the main viral infections in poultry farming through a practical and visual approach of the topic. Each disease has been thoroughly reviewed including the most updated information (aetiology, epidemiology, clinical signs, etc.) to facilitate its comprehension by the readers.

BROILER MEAT INSPECTION

Technical book on avian inspection which tackles the most important findings recorded and reported during broiler meat inspection at abattoirs. A chapter entirely dedicated to animal welfare is included in this book. It is focused on the major aspects to be considered by veterinarian/inspector under compliance with current legislation.

SALMONELLOSIS

MAIN CHALLENGES IN POULTRY FARMING

Any veterinary surgeon involved in the poultry industry should be acquainted with avian salmonellosis and know how to control and prevent it. This handbook, entirely dedicated to avian salmonellosis with a handy and visual approach, will help experts understand, diagnose, treat and control this disease.

Clara Marín, Santiago Vega

2016 / 62 pages / 17 × 11 cm

Ref.: LIBR0494 / P42200

RRP: €70 / w/o VAT: €67.31

Rights available.
All languages except Spanish,
English and French.

VACCINATION IN POULTRY

Vaccination is one of the cornerstones of poultry production and one that most influence production parameters in poultry industry. In broilers, the optimum time of vaccination should aim at obtaining the maximum meat yield. In layers and breeders, both time and the route of administration have an influence in the quality of egg shells and the number of eggs per laying, among others.

ATLAS OF AVIAN NECROPSY

This atlas, with more than 200 images, details a systematic, simple approach to the post-mortem examination of farmed poultry. Its contents include how to examine each organ and body system, what these organs look like when healthy, and most commonly encountered avian diseases at the slaughterhouse. The last chapter outlines a methodical approach for sampling during the post-mortem examination for subsequent diagnostic analysis.

3D cardiology in small animals 3
Pet owner educational atlas.
Cardiorespiratory system 4
The heart. Atlas of cardiology..... 10

DENTISTRY 10

Visual atlas of dental pathologies in dogs 11
Visual atlas of oral and dental pathologies in cats.. 10
Visual atlas of oral pathologies in dogs 10

DERMATOLOGY 11

N Canine and feline dermatology atlas 12
N Clinical cases in small animal dermatology 11
N Clinical immunodermatology in small animals... 12
N Dermatological diagnosis in dogs. An approach based on clinical patterns..... 11
Diagnosis of alopecia in dogs and cats 11
Ear diseases in dogs and cats. Case studies 12
Pet owner educational atlas.
Diagnosis in dermatology..... 5
Pet owner educational atlas. Dermatology..... 5

DIAGNOSTIC IMAGING 12

Atlas of radiographic interpretation in small animals 13
Diagnostic ultrasound in cats..... 12
Handbook of radiographic positions and projections in the dog 13
Practical small animal ultrasonography.
Abdomen 13

EMERGENCY 13

Small animal emergency care. Quick reference guide. 13

ENDOCRINOLOGY / REPRODUCTION 14

N Main endocrine disorders of the adrenal and thyroid axes in dogs and cats..... 14
N Update on canine hypothyroidism and feline hyperthyroidism..... 14

ETHOLOGY 14

Behavioural changes associated with pain in companion animals 14

INFECTIOUS DISEASES AND IMMUNOLOGY 14

Graphic handbook of immunology and infectious diseases of the dog and cat 15
Infectious diseases in cats. Practical guide..... 14
Infectious diseases in dogs. Practical guide..... 15
Pet owner educational atlas.
Immunology and transmissible diseases..... 4

MANAGEMENT 15

7 keys to successfully running a veterinary practice.. 15
Management solutions for veterinary practices... 15

MISCELLANEOUS 16

Pet owner educational atlas. Cats 6
Pet owner educational atlas. Dogs 5
Veterinary physiotherapy and rehabilitation..... 16

NEPHROLOGY / UROLOGY 16

N 3D Nephrology in small animals 16

NUTRITION 16

Practical atlas of nutrition and feeding in cats and dogs. Volume I..... 16
Practical atlas of nutrition and feeding in cats and dogs. Volume II..... 16

ONCOLOGY 17

N A guide to oncology for veterinary clinicians.
How to deal with cancer patients 17
Atlas of tumours. Oncology in daily clinical practice.. 17
Canine and feline oncology. From theory to practice. 17

OPHTHALMOLOGY 18

Feline ophthalmology. The manual 18
Quick guidebook to canine and feline ophthalmology.. 18

PARASITES 18

Fleas and ticks in small animals 18
Pet owner educational atlas. Parasites.
Diagnosis, control and prevention 4
Pet owner educational atlas. Parasites..... 6

SENIOR CARE 18

Key concepts in senior cat care 18

SURGERY AND TRAUMATOLOGY / ORTHOPAEDICS 19

Basic principles and techniques 7
Bloodless surgery 8
Bone surgery in small animals..... 19
Clinical cases of skin surgery 19
N Errors and complications in surgery..... 7
Orthopaedic pathologies of the stifle joint..... 19
Pet owner educational atlas. Surgery..... 6
Surgical techniques 7
The caudal abdomen 9
The cranial abdomen 9
The gastrointestinal tract. clinical cases 8
The pelvic area 9
The thorax 8
N Veterinary sutures handbook. Expanded edition.... 19

LARGE ANIMALS

CATTLE 24

60 Q&A on bovine parasitology.
A handbook of questions and answers 28
Atlas of bovine pathology 27
Bovine mastitis 26
Bovine respiratory disease 27
Bovine respiratory disease (handbook) 25
Colostrum. A practical guide for correct colostrum feeding in calves 29
Colostrum. Key to survival..... 25
Essential guide to calving..... 28
N Graphic handbook of immunology and infectious diseases in cattle 27

N Hoof diseases 25
Parasitology and parasitic diseases 26
Q fever. An emerging disease 28
Reproduction and ultrasound examination in cattle. A new perspective on the oestrous cycle..... 28
Reproductive evaluation and ultrasound diagnosis 25
The oestrous cycle of the cow.
A photographic atlas..... 29
The peripartum cow. Practical notes..... 29
Uterine diseases 26

POULTRY 31

Atlas of avian necropsy..... 35
Atlas of embryonic development..... 34
Avian infectious laryngotracheitis 32
Avian influenza 33
Broiler meat inspection..... 31
Coccidiosis 33
N Diagnosis of major poultry diseases 31
Hatchery vaccination 32
Immunosuppressive diseases of poultry 35
Infectious bronchitis 33
Infectious bursal disease 34
Main diseases in poultry farming.
Bacterial infections..... 31
Main diseases in poultry farming. Viral infections... 31
Marek's disease 34
Newcastle disease 34
Salmonellosis 32
Vaccination failures 33
Vaccination in poultry 35

SMALL RUMINANTS 30

Atlas of ovine parasitology..... 30
Atlas of ovine pathology 30
Atlas of parasites in sheep 30

SWINE 20

A guide for swine necropsy..... 24
A guide to necropsy diagnosis in swine pathology.. 24
Antimicrobial therapy in swine. A practical approach .. 23
Atlas of anatomical pathology of the gastrointestinal system of swine 23
Atlas of anatomical pathology of the porcine respiratory system 24
Biosecurity and pathogen control for pig farms... 21
Handbook of laboratory diagnosis in swine 24
Husbandry and management practices in farrowing units I. Farrowing..... 23
Husbandry and management practices in farrowing units II. Lactation..... 23
N Lactogenic immunity in the sow: a practical approach..... 22
N Leptospirosis 20
Management of the hyperprolific sow 22
Ovarian pathophysiology in the sow 20
Porcine circovirus type 2: the virus, the disease and the vaccine..... 21
PRRSv guide. Porcine reproductive and respiratory syndrome virus..... 21
Semen collection and processing 20
Swine disorders guide 21
The basic stockmanship guide: pigs, hogs and swine..... 22
