The Temporal Bone: Anatomical Dissection and Surgical Approaches

Mario Sanna
Abdelkader Taibah
Wenlong Tang

Alessandra Russo
Gianluca Piras

2018/192 pp./827 illus./hardcover/ISBN 978-3-13-241934-6

Complex anatomy revealed: navigate the temporal bone's labyrinthine region

Mario Sanna's *The Temporal Bone* is a guide to the dissection courses that the author himself would have sought to have while he was receiving training—as such, creating it has been a “dream come true.” The manual is designed to complement and reinforce the experiences of course participants, comprehensively covering normal and surgical anatomy of the temporal bone plus all aspects of basic to advanced otologic and neurotologic surgery.

KEY FEATURES

- Specially prepared cadaveric dissections show surgical anatomy
- Step-by-step descriptions outline the approaches/techniques in these dissections
- Surgical anatomy, indication, surgical steps, and hints and pitfalls are explained for every approach/technique

The Temporal Bone effectively transmits Mario Sanna's passionate dedication in otologic teaching and training to excellence. Residents and fellows should definitely find this book indispensable.

Endoscopic Surgery of the Orbit Anatomy, Pathology, and Management

Benjamin S. Bleier
Suzanne K. Freitag
Raymond Sacks

2018/200 pp./200 illus./hardcover/
ISBN 978-1-62623-505-2

A landmark text from global pioneers

The collective expertise shared throughout 20 chapters codifies the current state of endoscopic orbital surgery and sets the stage for future developments. The opening chapters cover anatomy, physiology, and radiology of the orbit, paranasal sinuses, and surrounding structures. Subsequent chapters detail evaluation and endoscopic management of a full spectrum of pathologies by utilizing orbital and optic nerve decompression, reconstruction, transorbital approaches, and anesthetic techniques.

KEY FEATURES

- State-of-the-art evidence-based medicine including pros and cons of different treatment approaches
- Managing postoperative challenges and operative complications such as sinusitis and iatrogenic intraorbital injury
- Pathology-specific topics including congenital and acquired lacrimal obstruction, thyroid-related eye disease, trauma, orbital neoplasms, and skull-base neoplasms with orbital involvement
- 200 original illustrations helping elucidate complex anatomy
- High definition, narrated surgical videos delineating specific surgical techniques

 If you can't be in the dissection lab, experience it in 3D from the comfort of your home!

Rhoton's Atlas of Head, Neck, and Brain
 2D and 3D Images

Maria Peris-Celda Francisco Martinez-Soriano
 Albert L. Rhoton, Jr.

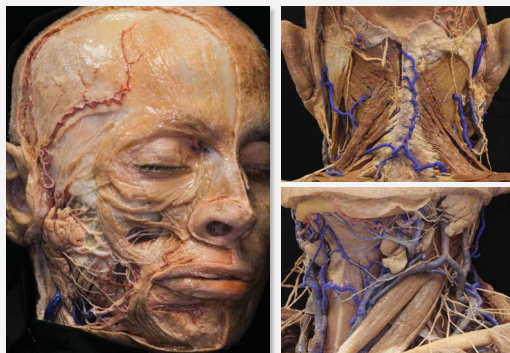

2018/648 pp./624 illus./hardcover/
 ISBN 978-1-60406-900-6

Masterful dissections. Unsurpassed insights.

The internationally renowned and beloved author, educator, brain anatomist, and neurosurgeon Professor Albert Rhoton, who is regarded as one of the fathers of modern microscopic neurosurgery, was revered by students and colleagues. This visually exquisite atlas is the crowning achievement of his career: it reflects more than 40 years of surgical anatomy research and dissection techniques performed in his laboratory.

SPECIAL FEATURES

- English and Latin descriptions for cross-referencing
- Multiple views of complex regions
- Over 600 images, with 2D images in the book and 3D counterparts online

A practical pocket guide,
now in full color!

Packed with information in an all-encompassing scope, yet conveniently portable, this book's reader-friendly organization (and superb index) is designed for quick reference.

WHAT'S GREAT IN THIS BOOK?

- Color figures explain procedures
- Numerous tables facilitate recall
- The latest TNM staging data within all cancer-related chapters
- Select chapters begin with emergency situations for speedy access
- Appendices on procedures, nerves, and referencing

**Head and Neck Cancer
Management and Reconstruction
Second Edition**

Eric M. Genden

2018/480 pp./600 illus./hardcover/ISBN 978-1-62623-231-0

Ablative and reconstructive approaches in a single volume

Thirty richly illustrated chapters feature open and endoscopic ablative techniques for treating a full spectrum of head and neck carcinomas and associated defects. This book encompasses pathological nuances, procedural guidance, clinical pearls, and reconstructive techniques. For each disease, the authors discuss management concepts followed by principles of reconstruction and functional rehabilitation. Topics include patient surveillance, monoclonal antibodies and immunotherapy, microvascular reconstruction, and minimizing wound complications.

KEY FEATURES

- State-of-the-art management of carcinomas impacting the oral and nasal cavities, salivary glands, oropharynx, hypopharynx, larynx, thyroid, anterior skull base, skin, and more
- A chapter devoted to transoral robotic management of the oropharynx includes anatomy, staging, case studies, and more
- Concise online videos provide insightful surgical guidance

**Skull Base Cancer Imaging
The Practical Approach to
Diagnosis and Treatment Planning**

**Eugene Yu
Reza Forghani**

2018/288 pp./813 illus./hardcover/
ISBN 978-1-62623-296-9

**An exceptional imaging guide
to neoplastic skull base diseases**

This concisely presented book overviews and analyzes regions anatomically from the Anterior Cranial Fossa to the Petroclival and Lateral Skull Base. Extensive imaging and illustrations make the complexities of cancer imaging in the skull base clear. This invaluable resource chronicles current knowledge in state-of-the-art skull base tumor imaging with clinical pearls on pathophysiology, prognosis, and treatment options

Presented by trailblazing plastic surgeons, this video collection addresses facial plastic surgery techniques with crucial awareness of the multifactorial process behind the aging face. With over 3 hours of video, this is extended footage from *Centrofacial Rejuvenation*. It includes cutting-edge fat harvesting and injection techniques for volume restoration along with innovative methods for preparing the fat tissue, eliminating the need for overcorrection, reducing the downtime and morbidity, and avoiding complications.

KEY FEATURES

- Introductory interviews with the authors and the noted Thomas M. Biggs, MD, address the challenges and opportunities of state-of-the-art surgery
- Newly-developed techniques include Sharp Needle Intradermal Fat (SNIF) injection as a permanent intradermal filler and Nanofat grafting with its regenerative capacities
- The power of synergistically combining appropriate techniques

The Dallas Rhinoplasty and Dallas Cosmetic Surgery Dissection Guide

Rod J. Rohrich
Jamil Ahmad

2018/Jewel Box with USB Flashdrive & Booklet 32 pp./20 illus./ ISBN 978-1-62623-992-0

Dallas Rhinoplasty at your fingertips!

The Dallas Rhinoplasty and Dallas Cosmetic Surgery Dissection Guide brings the world-renowned Dallas Rhinoplasty and Cosmetic Courses direct to your computer or mobile device.

IT OFFERS VIEWERS THE FOLLOWING KEY FEATURES

- Surgical footage of procedures performed by legends in plastic surgery
- A 30-minute rhinoplasty dissection
- A 30-minute cosmetic surgery demonstration
- Approximately 2.5 hours of high-quality cadaveric surgery footage with detailed anatomical views
- Clinically relevant procedures for multiple subspecialties, performed by experts in the field
- A dissection guide with stunning full-color photographs and illustrations of the procedures captured in the video

New!

The Elite Facial Surgery Practice Development and Management

E. Gaylon McCollough

2018/175 pp./65 illus./softcover & eBook/ ISBN 978-1-62623-644-8

50 YEARS

Uncover the secrets behind a thriving practice

This exemplary guide covers issues rarely discussed in clinical literature, from preparing for a career in facial plastic surgery to everything it takes to achieve long-term excellence in clinical practice.

60 YEARS

PART I: How to build a thriving practice -

Selecting the right training, following the golden rule of facial surgery, creating the ideal environment, developing an elite image, and leveraging social media

70 YEARS

PARTS II & III: Core facial surgery procedures -

Indications, aging, facts versus myths, selecting an approach, before and after photos, and lessons learned

80 YEARS

PART IV: Invaluable insights -

Creating and maintaining best practice models, dealing with unfortunate outcomes, managing and minimizing the risk of legal proceedings, and defending oneself in court

Cutaneous Malignancies

A Surgical Perspective

Brian R. Gastman

2018/272 pp./420 illus./hardcover/
ISBN 978-1-62623-147-4

A comprehensive and multidisciplinary guide

Advances as well as emergent predispositions in patients have made skin cancer treatment increasingly multidisciplinary, so diagnostic and treatment options have changed. This textbook, the first to emphasize surgical management of skin cancer, includes systemic nonsurgical therapies.

KEY HIGHLIGHTS

- The role of Mohs micrographic surgery and radiation in skin cancer treatment
- Treatment approaches for the two most common forms of skin cancer: respectively, basal cell carcinoma and squamous cell carcinoma
- Surgical treatment of cutaneous malignant melanoma and other high-risk malignancies
- Clinical insights on completion lymphadenectomy and sentinel node biopsy for melanoma, two topics rarely addressed in context with skin cancer

New!

Facial Reconstruction After Mohs Surgery

James F. Thornton Jourdan A. Carboy

2018/228 pp./467 illus./hardcover & eBook/
ISBN 978-1-62623-734-6

Aesthetic post-Mohs scar repair

While Mohs, the gold standard surgical treatment for head and neck skin cancer excision, has a 99% effectiveness rate for new cancers and 95% for recurrences, more than 90% of patients desire improvement in their scars.

With step-by-step guidance on efficacious, aesthetically pleasing, and functionally complete repairs, this book summarizes 12,000 post-Mohs facial reconstruction surgical cases.

KEY HIGHLIGHTS

- General techniques including wound care, skin and cartilage grafts, and local and pedicled flaps
- Managing intraoperative, acute, and late healing stage complications, optimizing scars, and performing revision surgeries
- Nearly 500 full-color photos and drawings as well as 20 high quality online video clips
